

MOBILE MAT

Winner of the Golden Compass in 1994, the Mobil chest of drawers is presented in a matt version in white, black, green, plum and light blue. The new edition is made of recycled industrial materials, and has the same robust construction and functionality as the original. The basic element of the system is the drawer, alternated with shelves and tops, connected by an aluminium structure. In this new finish, the structure is coloured and the wheels are coloured too, now black instead of grey. This versatile product shouldn't be restricted to use in the office as it fits perfectly into every room in the home, from the bedroom to the living room and the bathroom too
