

Under the Bell

Under The Bell is a pendant lamp that is multi-functional as the design not only provides an ambient light but also enhances the acoustics of the room. With its raw, tactile texture that comes from its shade being produced using recycled plastic felt, Under The Bell is an example of modern design with hints to Scandinavian values. Available in black and grey, the lamp blends effortlessly into open spaces such as restaurants, hotels, work environments and education institutions. Large sheet of PET material is heated in a mould and pressed into its shape.
