

Re-Chair

Re-Chair designed by Antonio Citterio is made from recycled materials. The result is a chair produced according to sustainable principles, characterised by bold, square lines which succeed in creating a sense of lightness and solidity all at once. The style of Re-Chair means it can be positioned in various different parts of the home, from the dining room to the study. Perfect for the Habitat setting, the chair is also an ideal piece for Office use.

MATERIAL: post-industrial recycled thermoplastic technopolymer obtained from Illy coffee pods.

<i>Brand:</i>	KARTELL
<i>Item type:</i>	Chair
<i>Item code:</i>	5803/03
<i>Designer:</i>	Philippe Starck
<i>Color:</i>	White
<i>Dimension:</i>	39 x 49 x 79cm
