

Calatini

Structure: ceramics decorated by hand. The ceramic structure is made and decorated by hand with exclusive colours by Nicolò Morales. The material, the particular handwork and the production technique used for the Calatini lead to colour and design differences between tables, even from the same batch and typology. The irregularity and the uniqueness of each item are sought after and are the featuring characteristics of this series. This product can be used also in interior environments.

Brand: **Paola Lenti, Made in Italy**

Item type: Table
