

**LIZA**

"The timeless style, the comfort and formal likeability are the "pluses" of Liza. Since I am very fond of ergonomics, I wanted Liza to ensure the body's rotating moves in various positions. Comfort is the main feature for products destined for seating and sleeping purposes. How many times it happens to stand up with lumbar pain, even with chairs and armchairs more "signed" ? This won't ever happen with Liza." Legs in solid natural painted oak, or in natural Canaletto walnut. Sling with armrests of polypropylene reinforced with glass fibre, in the shades white or black. Seat cushion upholstered with self extinguishing. Polyurethane foam. Removable cover of the seat cushion in fabric or leather. For the version 2271/R removable backrest cover in fabric or leather with Dacron Du Pont.

*Brand:* **Zanotta, Made in Italy**

*Item type:* Armchair
