

### **Neve**

Neve is a chair with exact yet soft lines, which reinterprets the classic wooden chair in a contemporary vein. While the support structure is characterized by a frame of slightly inclined, clear lines of various thicknesses, the roundness of the spindle legs and the slim curvature of the back and suspended seat soften its figure, making it extremely welcoming and intimate. Solid ash frame, with curved plywood seat and back. The chair is available with and without arms in the following finishes: natural ash, black, red or white stained ash. The upholstered version shows leather or eco-leather covered seat and back.
