

Soho 3 Seater Sofa

The 3-seater outdoor sofa of the Soho collection has a nautical inspiration and combines the two-dimensional structure with the volume of the cushions to create a perfect balance of materials and shapes. In the Soho 3-seater sofa the powder-coated aluminium structure creates a sturdy frame combined with the synthetic fabric rope on which the cushions rest. Teak cylindrical strips decorate the rope. The cushions are removable, easy to wash and weather resistant. Quick dry foam padding. Optional white or light blue cushions are available for the white version and green for the graphite one.
